Dear Mr. Dirdon,

The RGNPA would like to formally support your proposal for a railroad museum that would be built in the Guadalupe River Gardens.

We were excited to hear about this historical project whose site will be two miles from our neighborhood. Our neighborhood association is interested in preserving history not only in the perimeters of our Association, but in the larger community itself. This is a great project that would add to the history of the community.

If there is anyway we can assist in this project in the future, we would like to know.

I can be reached at 408-506-0506 or by e-mail ldittes@igc.org.

Respectfully,
